**Shure SAFE®**

Architectural / Engineering Specification For Fire Rated Drawer Model #SPT-FR101

DIMENSIONS:

Overall Size - 18"W x 25"D x 9"H
Frame Face - 21 3/8"W x 11 1/8"H
Transfer Area - 13 5/8"W x 17 3/4"D x 7 7/8"H
Wall Opening - 19 5/8"W x 9 1/2"H
Weight - Approx. 67 lbs.

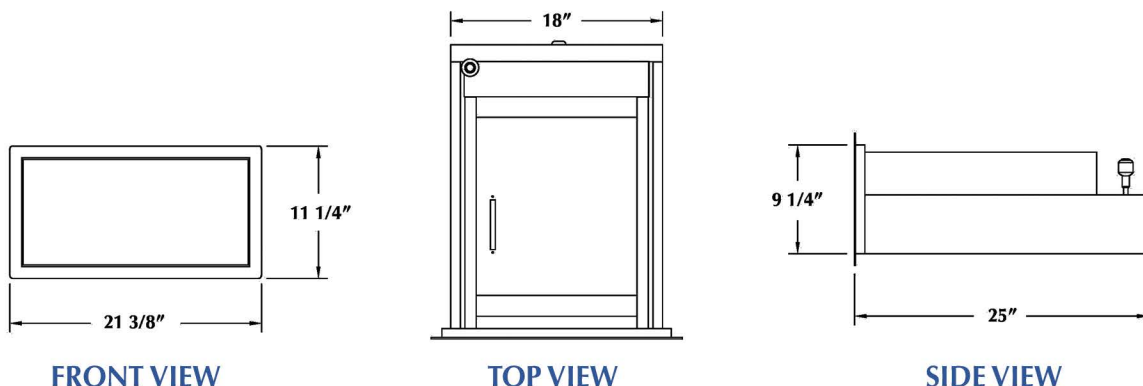

General Specifications: Furnish and install a manually operated, self-closing, stainless steel, thru-wall cash drawer, 18"W x 25"D x 9"H, Model SPT198, as manufactured by Shure Manufacturing Corporation, Washington, MO., phone 800.227.4873, fax 636.390.7171.

Product Specifications: The transaction drawer shall be stainless steel construction with a stainless steel drawer face, exterior frame angles for mounting and shall be mounted in a wall opening 19 5/8"W x 9 1/2"H. The interior transfer area shall be 13 5/8"W x 17 3/4"D x 7 7/8"H and shall be equipped with a stainless steel deal tray for money and credit card transactions that can be removed to expose a large transfer area for bulkier items. The transfer area shall have a horizontal travel length of not less than 11" and shall be operated by a handle with a push-to-operate interlock mechanism to prevent uncontrolled exterior access to the transfer area. The rear wall of the transfer bucket shall prevent interior side access when the drawer is fully opened.

Assembly And Installation Specifications: Assemble, install and clean the drawer in accordance with Shure Manufacturing Corporation instructions.

Typical Use: Versatile design for administrative, retail and convenience store environments.

Form #SSFR101 - V1 / 10-27-22
